1. Claims 1, 2, 5-10, and 13-20 are allowed. Claims 1, 6 and 9 are independent.

2. The following is an examiner's statement of reasons for allowance:

Claims 1 and 9 as amended include the limitations of now canceled claims 3 and 11, respectively. Claims 3 and 11 were indicated allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claim. The reasons for allowance for claims 3 and 11 given in the previous Office action dated October 30, 2007 are repeated below for claims 1 and 9.

Claim 1 is allowable over the prior art of record because the closest prior art Lien et al. (U.S. Patent Application Publication No. US 2003/0202219 A1) does not disclose having the user select a particular value for the angle for the image scanning of the image. The angle of Lien et al. seems to be a fixed angle. See Figs. 2A, 2B, 4A, and 4B.

Claims 2 and 5 depend on claim 1.

Claim 9 is allowable for the same reason given for claim 1.

Claims 10 and 13-17 depend on claim 9.

Claims 6-8 and 18-20 were allowed in the previous Office action. The reasons for allowance given for independent claims 6 and 18 in that action are repeated below.

Claim 6 is allowable over the prior art of record because the scan bar (110) of the closest prior art Lien et al. (US 2003/0202219 A1) does not include a plurality of sensor

elements disposed in multiple substantially linear arrays, each array being tilted with respect to the longitudinal axis of the scan bar at a substantially identical and substantially nonzero angle which is fixed during any image scanning of the image used to create the final scanned image.

Claims 7 and 8 depend on claim 6.

Claim 18 is allowable over the prior art of record because the closest prior art Lien et al. (US 2003/0202219 A1) does not disclose a plurality of sensor elements supported by a scan bar body having a longitudinal axis, the plurality of sensor elements disposed substantially in a common plane in multiple substantially linear arrays, each array being tilted with respect to the longitudinal axis at a substantially nonzero angle.

Claims 19 and 20 depend on claim 18.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cheukfan Lee whose telephone number is (571) 272-7407. The examiner can normally be reached on 9:30 a.m. to 6:00 p.m., Mon-Fri.
